MODELING EMBEDDED SYSTEMS AND SOC S: CONCURRENCY AND TIME IN MODELS OF COMPUTATION (HARDBACK)

ELSEVIER SCIENCE TECHNOLOGY, United States, 2003. Hardback. Book Condition: New. New.. 236 x 188 mm. Language: English . Brand New Book. Over the last decade, advances in the semiconductor fabrication process have led to the realization of true system-on-a-chip devices. But the theories, methods and tools for designing, integrating and verifying these complex systems have not kept pace with our ability to build them. System level design is a critical component in the search for methods to develop designs more...

Reviews

Completely among the finest ebook I actually have possibly go through. It is really basic but excitement from the 50 percent in the book. I am quickly could possibly get a pleasure of looking at a published ebook.

-- **Javon Okuneva I**

Very useful to any or all type of people. This is certainly for those who statte there was not a worth reading through. You can expect to like how the writer write this pdf.
