DEVELOPING CREATIVITIES IN HIGHER MUSIC EDUCATION: INTERNATIONAL PERSPECTIVES AND PRACTICES (PAPERBACK)

Taylor Francis Ltd, United Kingdom, 2016. Paperback. Book Condition: New. 234 x 156 mm. Language: English . Brand New Book. This is the first book to critically address the issue of how we can enhance and develop creativities in higher music education. It features new international, richly diverse perspectives on the nature and practice of creativities in different cultural and institutional contexts, in varying roles and in response to diverse professional pressures and expectations of artistic and educational achievement. This compelling and provocative book combines powerful social and educational commentaries and examples drawn from international sources based on original practices and experience of a diversity of creativities. The authors provide an important contribution by drawing attention to what is at the heart of all music and how we can understand and foster these multiple creativities at an individual and institutional level. Topics covered include: -the conceptual tools for people to think about and debate multiple creativities -the role of creativities in higher music education -how musicians can develop multiple creativities in new ways -new approaches to teaching and learning for multiple creativities -what constitute leadership creativities in conservatoires and music departments -creativities at the interface of institutional learning cultures -assessing the multiple creativities of music. Developing Creativities in Higher Music Education offers a multi-disciplinary research and practice focus, which will be essential reading for anyone involved in higher education and industry sectors.
