

The Planets in Our Solar System

By Franklyn M. Branley, Kevin O'Malley

HarperCollins Publishers Inc. Paperback. Book Condition: new. BRAND NEW, The Planets in Our Solar System, Franklyn M. Branley, Kevin O'Malley, Where is it partly cloudy and 860 F? Venus! This classic picture book is a fascinating exploration of space written by children's nonfiction veteran and former chairman of the American Museum of Natural History-Hayden Planetarium Franklyn M. Branley and illustrated by Kevin O'Malley. Full of interesting facts about the eight planets in our solar system, including our very own Earth, this bestselling book also features photographs from Voyager and other space explorers. Now rebranded with a new cover look, this book features a find out more section with instructions for making your own solar system mobile and web research prompts about how to track the moon. Both text and artwork were vetted for accuracy by Jurrie van der Woude of NASA. This is a Level 2 Let's-Read-and-Find-Out, which means the book explores more challenging concepts perfect for children in the primary grades and supports the Common Core Learning Standards and Next Generation Science Standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Ally Reichel**

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
