It is a well-established fact, that with the many improvements in science and art, the different new and successful theories in medicine, the many and ever-changing fashions of dress, that people, generally speaking, wholly neglect that important preservative of health, and highest ornament to mankind, the hair: and it is with a view to lay before you a few interesting facts, and prove satisfactorily to those present that in order to enjoy the ultimatum of health, if is truly necessary to pay the utmost attention to the growth and cultivation of the hair. These remarks, my friends, are based wholly upon practiced knowledge, and that practical knowledge acquired by many years experience and study.
